TREMENDOUS GROWTH WINS 2005 BUSINESS AWARDS FOR OMEGA LABORATORIES, INC.

October 31, 2005, Mogadore, OH...As a result of its triple-digit annual growth since its founding in 2000, Omega Laboratories Inc. announced it has received two 2005 Cascade Capital Corporation Business Growth Awards in the Technology Category. The first award is for “Greatest Percentage Sales Increase”. The second award is for “Overall Success Story”.

According to Robert Filipiak, Executive Director of Cascade Capital Corp., “Our Business Growth Awards have been recognizing outstanding performance by Northeast Ohio corporations for 11 years. Omega Laboratories’ remarkable growth in the last five years certainly deserves recognition and these special awards.”

Omega is one of only six laboratories worldwide that tests hair samples for illicit drug use and has become the second-largest player in the market. According to Omega co-founder John Vitullo, PhD, “We are very pleased that Hair Drug Testing is gaining recognition as the most powerful drug test available. Its 90 day detection window vs. 3 days for Urine Tests, plus the fact that Hair Tests cannot be adulterated or “cheated”, is giving our clients a distinct advantage in their pre-employment, random, and reasonable suspicion drug testing programs”.

Hair Testing is increasingly used by corporations, law enforcement agencies, and courts. According to Jay Davis, Omega President, “We are building our business through fast turn-around of test results and award-winning customer service. Over 95% of specimens received by noon have the test results reported out the same day. We have found that to be very important for our clients and a solid competitive advantage for Omega”.

Omega Laboratories Inc. serves corporate, law enforcement, court, Occupational Health Centers and Third Party Administrator clients in all 50 states, Canada, Mexico, South & Central America, Europe, Russia, and Japan. It is located at 400 North Cleveland Avenue; Mogadore, OH 44260. Telephone: 1-800-665-5569. The company’s website is www.omegalabs.net
