

# Ω Omega Laboratories Technology Solutions

## Online CCF & Reporting Solutions

oCCF is a web-based Custody and Control Form system offering data collection and reporting solutions for employers, TPAs, and drug testing clinics around the globe. The oCCF helps to improve the efficiency, effectiveness, and accuracy of your program.

**Electronic Data Collection:** Enter data using a computer or tablet

**User-friendly Workflow:** Step-by-step workflow simplifies the collection process

**Form Generation:** Generate clean, professional, legible chain of custody forms

**Test Archive:** View previously completed collection documents using the oCCF dashboard

**Results Reporting:** Automatically distribute test results to approved contacts using the Extranet portal

**Status Posting:** Track receipt and reporting of specimens once received at the laboratory

## Instant Testing Solutions

oCCF offers unique POCT instant testing solutions that are not readily available in the marketplace. This includes the ability to generate professional looking results that will enhance your billing and reporting process.

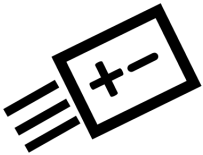

**Instant Test Result Reports:** Generate professional and legible instant POCT results reports alongside your collections

**Export:** Export data for statistics, client reviews, and invoicing

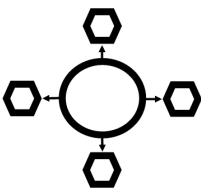

**Tablet Functionality:** Optimized for use on tablets for on-site and mobile collections

**Results Distribution:** Instant results automatically posted online to all authorized users using the Extranet

**Instant Test CCF Generation:** Generate a clean, professional, legible chain of custody for Instant POCT tests requiring lab confirmation

**Data Integration:** Options are available that allow data to flow seamlessly between your software solutions.
